PROFILE

MSc Data Science and Analytics student at Cardiff University with over 2+ years of backend development experience at Tata Consultancy Services. Experienced in designing REST APIs, building batch processing systems, and supporting scalable backend systems in production environments. Strong foundation in system design, database integration, and backend development.

EDUCATION MSc Data Science and Analytics *(Expected May 2027)*
Cardiff University, United Kingdom
B.Tech Computer Science and Engineering, 2023
SRM Institute of Science and Technology
CGPA: 9.04 / 10

PROFESSIONAL EXPERIENCE Software Engineer – Backend Systems
Tata Consultancy Services | Jul 2023 – Dec 2025

- Designed and developed 85+ REST APIs using Java and Spring Boot for a nationwide government project (Passport India)
- Built and maintained batch processing systems for automated reporting workflows
- Implemented secure authentication mechanisms for controlled API access
- Improved system performance using Redis-based caching
- Worked with MySQL for structured data management and optimisation
- Provided production support and resolved system issues in live environments

PROJECTS Fluffy AI Assistant
Python, SQLite, Whisper, Speech Recognition, Eel
Developed a desktop AI assistant in Python with voice/text command handling, structured backend logic, SQLite-based data management, and automation workflows for search, messaging, and application execution.

Interactive Portfolio Website
React, TypeScript, Vite, GSAP, Three.js
Built and customized a responsive portfolio website to present technical projects, professional experience, and academic background with component-based frontend development and interactive navigation.

Image Analysis Project
Python, Tkinter, PIL, NumPy, scikit-image, Matplotlib
Designed and implemented an image analysis application for performing image transformations, histogram analysis, edge detection, thresholding, cropping, and RGB channel extraction through a GUI-based workflow.

TECHNICAL SKILLS
Programming: Java, Python, SQL
Frameworks: Spring Boot
Backend: REST APIs, Microservices, Batch Processing
Databases: MySQL, Redis, SQLite
Tools: Git, GitLab, Jenkins, Postman
Concepts: Data Structures, OOP, System Design, Agile

LEADERSHIP EXPERIENCE & ACHIEVEMENTS Residence Life Assistant (RLA)
Cardiff University (Residence Life) | Jan 2026 – Present

- Act as first point of contact for student residents, supporting wellbeing and handling concerns
- Manage incident reporting and coordinate with university teams
- Organise community events and create an engaging and inclusive environment
- Demonstrate strong communication and decision-making under pressure **Awards:**
- 2× TCS On the Spot Award – Production deployment excellence
- 2× TCS Technical Excellence Award – Batch system implementation
- Treasurer & Coordinator – Indian Society for Technical Education
